Summer is around the corner...

it's going to be a busy year and where do we start?

Twelve volunteers are needed for the May 20th Swap meet in Oconomowoc. Page 3 has openings. Give Frank a call at 262-284-3650.

You'll find additional information on upcoming boat shows inside: The Eagle River Show benefitting special needs kids is June 16-17. The Blackhawk Father's Day Cruise is June 17th. Karl Johns is adding a pig to his party on June 24. Steve Bunda is putting together his first Lake Lucerne One Day Rendezvous, Sat. July 14th. The Blackhawk 23rd Antique and Classic Boat show is Sat., July 21. The Minocqua Show is July 27-29.

The Pewaukee Show is moving to the lakefront and will be one week later, August 25. Yours truly forgot to send a letter to The Pewaukee Yacht Club requesting the August 18th date. Someone reserved the date for another function. We thought about moving to a Sunday or moving it one week earlier or later. It was decided to make a presentation to the Park & Recreation Department, Village of Pewaukee. Bob Stoltz put on his selling shoes and we approached the Village. They liked the idea and saw the benefit to the community. They gave us a tentative orange to green light. There are a number of concerns that we are currently working on. John Baumann is working with Summerset Marine regarding temporary piers. We've also visited with The Chamber of Commerce, and Positively Pewaukee. They are excited about the whole idea. Another big plus is that we'll be able to now promote the event. More information will be in the May/June newsletter.

The Madison Boat Show will expand to two days that will include a special tour of lakes. More information will be in the May/June newsletter.

John Baumann has reserved the Annual dinner meeting at Oconomowoc Lake Club for Sunday October 7th. John said we will be able to launch our boats. We'll do a fall cruise followed by the dinner. It sound like fun.

Mary and I just returned from an ACBS quarterly meeting and Symposium at Mystic Seaport, CT. It was a great event. An entire newsletter plus could be devoted to what we did, saw and enjoyed. There were 17 speakers with a plethora of knowledge and entertainment. We visited places and met people that you'd not be able to accomplish on your own. Remember the movie Mystic Pizza? We ate there and guess who we saw? If you would like to attend a quarterly or annual meeting, Glacier Lakes will give you some seed money to attend. Find a bit of information about our trip on page 9, 10 and 11.

On a final note, ACBS International will have their quarterly meeting in Milwaukee, June 25, 26, 27 and 28, 2008. It will be hosted by Blackhawk and Glacier Lakes. More information will follow.

**Annual
Fathers Day
Port Edwards
Champagne
Brunch &
Fox River Cruise
Sunday June 17**

The Blackhawk Chapter is pleased to announce the annual Fathers Day Cruise to Port Edwards Restaurant in Algonquin for the sumptuous Sunday cham-

pagne brunch. For those of you not familiar with this cruise, this is not one to miss. The lower Fox River is always calm, and the brunch at Port Edwards is extraordinary and the atmosphere is very nautical. This is also a good early season shakedown in the company of helpful companions.

The cruise will start with a free launch at Turnkey Classics in Burtons Bridge, at Highway 176 and the Fox River, courtesy of member Chuck Kelley.

Plan on being launched and ready to run by 9:30, at which time we will head south to Algonquin. We will be seated for brunch around 11:00. After gorging ourselves, we have the whole day for the leisurely trip back north. Cost is \$22.00 each, includes coffee, brunch, champagne, the works. Please mail the sign up form by June 4.

Quarterly ACBS meeting and tour of restoration facilities in Rhode Island

One of our stops at Mystic Seaport, CT was The International Yacht Restoration School founded in Newport, Rhode Island, in 1993. Today, IYRS's 10,000 sq ft restoration facility is a busy working school on the Newport Waterfront. Originally, the facility was a power generation station plant when built in 1903. There wasn't a lot of student activity because it was spring break when we visited. Many first year students work on Beetle Cats. These boats provide a basic understanding of the restoration process.

We were taken to another building where we were awed at a massive hull. Built in 1885, the Coronet is the last of its kind, a 133ft Schooner in that no other large sailing yachts of her style and stature exist today. It is estimated that it will take two years and seven million dollars to restore her.

The May/June 2006 issue of *WoodenBoat* magazine has an excellent article about The International Yacht Restoration School.

Quarterly ACBS meeting and tour of restoration facilities in Rhode Island

There was a cocktail reception and private tour of The Herreshoff Marine Museum. Halsey Herreshoff, President of Museum talked about the goals of the museum. The collection has over 60 original Herreshoff boats, steam engines, artifacts, and brilliant photographs depicting America's greatest designer and builder during "The Golden Age of Yachting".

Another stop was lunch at the Newport Clubhouse of the New York Yacht Club, overlooking Newport Harbor. Chris Smith did an impromptu stand up, giving some history about the New York Yacht Club. One of the symposium speakers, Chris Smith hardly needs an introduction. As grandson of the founder of Chris Craft (his grandfather and namesake, Christopher Columbus Smith), Chris' stories and anecdotes of "grandpa" have become both legendary and an invaluable historical perspective into our hobby. His involvement with Chris Craft began in the early 1950s, having served in key management positions and accumulating a wealth of first-hand knowledge about Chris Craft boats, management, design and production.
